G-Technology, Inc. Adds High-Performance Models to G-DRIVE™ mini Lineup

New 60, 80 & 100 GB Mobile Drives Spin at 7200 RPM and Sport 8 MB Cache

San Francisco, CA (MacWorld Expo), January 9, 2006 – G-Technology Inc. (G-Tech) announced today the addition of three new high-performance units to the company's award winning line of G-DRIVE mini mobile disk drives. These new versions feature 60, 80 and 100 GB, 7200 RPM hard drives with 8MB cache and either dual FireWire 800 or FireWire 400 and USB 2.0 interfaces.

"Our new 7200 RPM G-DRIVE minis are the perfect high-performance storage solutions for audio and video editing on the go," commented Roger Mabon, President of G-Technology, Inc. "With capacities up to 100 GB and desktop like performance, these mobile drives support DV, HDV, DVCPRO HD and uncompressed video applications on Mac and PC laptops."

About G-DRIVE mini

Weighing in at less than 9 oz., G-DRIVE mini is the ultra-portable and stylish way to travel with up to 100 GB of high-speed storage for your important documents, MP3s, digital video and digital photo files. G-DRIVE mini is bus powered, eliminating the need to carry an external AC power supply.

The new G-DRIVE mini models feature:

- High-performance 7200 RPM Hitachi Travelstar® 7K100 series disk drives with 8 MB cache
- Ultra-portable and stylish all aluminum enclosure with built-in heat sink
- Compact size - just 4.9" x 3.2" x .88" weighing less than 9 oz.
- Power via FireWire or USB bus – no cumbersome AC adapter required
- Mac OS X and Windows XP compatibility
- 2-year warranty

Pricing and Availability

G-DRIVE mini 7200 RPM drives are available now with prices (US MSRP) starting at \$249. Visit G-Tech at www.g-technology.com to buy online or to find a reseller.
