G-Technology, Inc. Ships G-RAID₂[™]

Second Generation G-RAID Features FireWire 400, FireWire 800 & USB 2.0 Connectivity and High-Speed SATA II Hard Disk Drives

Amsterdam, Netherlands (IBC 2006) – September 8, 2006 – G-Technology, Inc. (G-Tech) today announced the immediate availability of its new G-RAID₂ storage solutions featuring a triple interface (FireWire 400, FireWire 800 & USB 2.0) and the latest generation 7200 RPM SATA II hard disk drives. G-RAID₂ is specifically designed to support multi-stream DV, HDV, DVCPRO HD and uncompressed SD video editing workflows on Mac's and PC's.

"The new G-RAID₂ combines the award winning attributes of the original G-RAID with the latest storage technology currently available," said Pete Schlatter, Director of Marketing at G-Tech. "G-RAID₂ features high-speed SATA II hard drives, a triple interface and provides industry leading performance and reliability for professional content creation applications."

G-RAID₂ features:

- Supports multi-stream DV, HDV, DVCPRO HD and uncompressed workflows
- Triple Interface: FireWire 400, FireWire 800 & USB 2.0
- Oxford Semiconductor 924DSB chipset
- High-Speed, 7200 RPM SATA II disk drives
- Storage capacities up to 1.5 TB
- Integrated cooling fan for long life and reliable operation
- Mac OS X & Windows XP compatible
- 2-year warranty

Pricing and Availability

G-RAID₂ is available now through a network of international dealers and distributors. G-RAID₂ pricing starts at \$369 (US MSRP). Visit G-Tech at www.g-technology.com to find a G-RAID₂ reseller near you.
