

Meet **G|SPEED** eS PRO XL

High-Performance, Expandable Fail-Safe RAID Solutions for uncompressed HD and 2K Production

The new G-SPEED eS PRO XL from G-Tech is a cost-effective, expandable storage solution designed for content creation professionals working with multi-stream uncompressed HD and 2K workflows, and digital intermediate (DI) film applications. G-SPEED eS PRO XL easily expands by simply daisy-chaining 12- or 16-bay enclosures using locking mini-SAS cables. A total of (8) enclosures can be connected to the system for up to 256TB of incredibly fast online storage! It features the same IOP RAID controller used in the G-SPEED eS PRO system with (2) 12Gbit mini-SAS ports and performance over 800 MB/sec. A single 12-bay G-SPEED eS PRO XL can support real-time multi-stream 10-bit 1080/60i and 2K DPX video files. Adding high-performance storage has never been so simple - or cost effective.

- High-speed RAID system featuring 12- or 16-bay SAS expansion chassis with mini-SAS connectivity
- Bundled PCIe x8 IOP controller supports RAID 0, 1, 3, 5 and RAID 6
- Single unit supports dual-stream 10-bit uncompressed HD and 2K DPX
- Scalable to 256TB in storage capacity!
- Redundant Power Supplies
- Browser-based configuration and management
- Standard 3-year factory warranty
