Meet **G | SPEED eS**

Cost-Effective eSATA RAID Storage for SD/HD Production

G-SPEED eS provides professional content creators with outstanding performance, high storage capacity and optional fail-safe operation at an unprecedented low cost per gigabyte. The compact and whisper-quiet G-SPEED eS sports a 3Gbit eSATA interface and features Hitachi 7200 RPM, SATA II hard drives. When used with the optional G-Tech RAID controller, a single G-SPEED eS in performance mode (RAID 0) easily supports uncompressed 8-bit, 1080/60i HD video capture and playback. Two G-SPEED eS units in fail-safe mode (RAID 5) support 10-bit, 1080i and more! As many as four G-SPEED eS enclosures can be attached to a single workstation to support up to 32TB of storage with speeds in excess of 600MB/sec! Storage for multi-stream uncompressed SD and HD production has never been easier or more affordable!

- Supports multi-stream SD, HDV, DVCPRO HD, Apple ProRes 422 and uncompressed HD video workflows
- High-speed, port multiplied 3Gbit eSATA interface with single cable connection
- Optional G-Tech PCIe RAID controller supports RAID 0, 1, 5, 10 & JBOD
- Hot-swappable 7200 RPM SATA II disk drives each with up to 32MB cache
- Whisper-quiet, all-aluminum enclosure
- Scalable to 32TB in storage capacity
- Web-based configuration & management
- Standard 3-year factory warranty
